ELEGANZA E SEMPLICITÀ

Sono questi i due principi ispiratori che hanno portato alla nascita delle nuove linee di rubinetteria ELLE e EFFE.

Linea squadrata e profilo pulito, per amplificare un senso di eleganza e modernità che rendono queste serie adattabili ad ogni tipo di ambiente. La cura del dettaglio si accompagna alla cura della funzionalità: un design di alta gamma si unisce ad una tecnica e componentistica di elevata qualità. Leva aperta per la serie EFFE, leva chiusa per la serie ELLE.

Due varianti di design per una serie unica nelle sue linee essenziali. E per entrambe le versioni il lavabo è disponibile in tre altezze differenti (Standard, Medio e Prolungato).

ELEGANCE AND SIMPLICITY

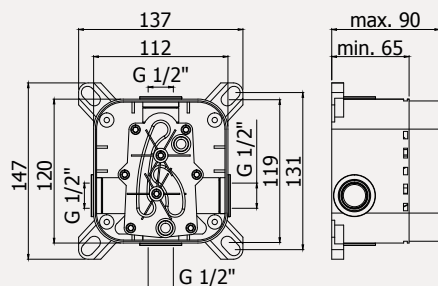

These are the two key factors that have led to the realization of our new EFFE and ELLE mixers lines. Square line and clean profile to amplify a sense of elegance and modernity that makes these series suitable for any environment.

The attention to detail is accompanied by the care of functionality: a high-end design is combined with technique and components of high quality.

Open handle for EFFE and closed handle for ELLE.

Two design variants for a unique series of essential lines.

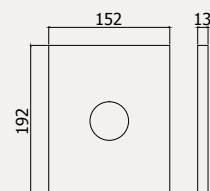

For both versions, washbasin mixer is available in three different heights (Standard, Middle and Extended).

INNOVAZIONE

Prima gamma di rubinetteria prodotta con lavorazione interamente da barra, la serie BIRILLO ha rappresentato nei primi anni 2000 un'innovazione tecnica ed estetica di altissimo livello. Ancora oggi rappresenta un mix di grande successo tra design e praticità di utilizzo, le sue forme pulite e lineari lo rendono il perfetto complemento di arredo di qualsiasi ambiente. Oltre che nella classica finitura cromata, la serie è disponibile anche in versione acciaio.

INNOVATION

BIRILLO series is the first range of taps produced entirely by brass-bar machining; in the early 2000s it represented a technological and aesthetics innovation of the highest level. Still today, it is a mix of great success between design and usefulness; its clean and linear shapes make it the perfect complement to any room decor. It is available in chrome and in steel finish.

ESSENZIALE

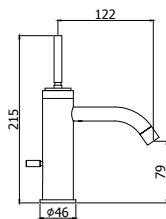

Design semplice ed essenziale, movimento fluido e maneggevole della cartuccia: la serie FYNE rappresenta la massima espressione della purezza. Il corpo è un semplice cilindro lavorato da barra, la leva è una semplice asta di metallo: una semplicità ed una essenzialità che però enfatizzano la personalità senza fronzoli di questo rubinetto. Tutti gli articoli sono disponibili nella classica finitura cromata.

ESSENTIAL

VERSATILITÀ

La fusione tra forma quadra e tonda crea uno stile unico per le serie RINGO e WEST, rendendole perfette per ogni stile di design e di arredamento. Oltre che nelle sue forme, la versatilità di queste serie si evidenzia anche nelle sue numerose varianti: leva aperta per la serie RINGO, leva chiusa per la serie WEST.

E per entrambe le versioni il lavabo è disponibile in tre altezze differenti (Standard, Medio e Prolungato), e sia con cartuccia standard che con cartuccia **ENERGY SAVING**, grazie alla quale si può ottenere un sensibile risparmio energetico in quanto l'apertura della leva consente erogazione di acqua fredda, mentre per ottenere l'acqua calda è necessario ruotare la leva verso sinistra.

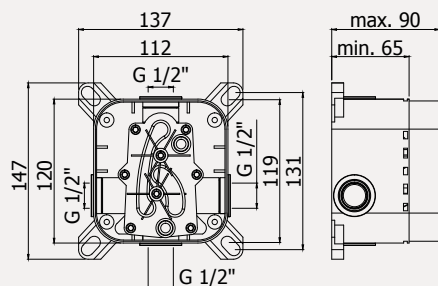

VERSATILITY

*The fusion between square and round shape creates a unique style for RINGO and WEST series, making them perfect for any design style and furnishings. In addition to their forms, the versatility of these series is also evident in its many variations: Open handle for RINGO series, closed handle for WEST series. For both versions, washbasin mixer is available in three different heights (Standard, Middle and Extended), and even with standard cartridge then **ENERGY SAVING** cartridge, thanks to which you can achieve significant energy savings since the opening of the handle in frontal position allows supply of cold water, while for obtaining hot water it is requested to turn the handle to the left.*

La serie RINGO è inoltre disponibile, oltre alla versione classica cromata, anche nelle moderne finiture BIANCO OPACO e NERO OPACO.

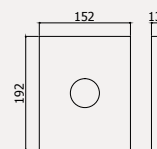

The RINGO series is also available, in addition to the classic chrome, in modern finishes: MATT WHITE and MATT BLACK.

INNOVAZIONE

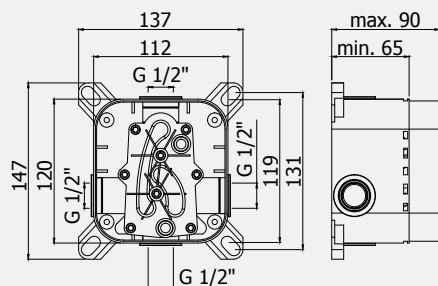

Con la sua forma semplice e la sua linea pulita, la serie STICK rappresenta il primo esempio di evoluzione dal miscelatore standard al rubinetto moderno e minimalista nel rispetto della praticità di utilizzo e del contenimento dei costi, sia di produzione che di consumo.

Il lavabo è infatti disponibile nella versione con cartuccia **ENERGY WATER SAVING**, grazie alla quale è possibile ottenere un duplice risparmio energetico: l'apertura della leva al primo scatto consente erogazione di sola acqua fredda e in ridotta quantità, mentre per ottenere l'acqua calda è necessario ruotare la leva verso sinistra e per avere più portata è necessario alzare la leva oltre l'ECO-STOP.

INNOVATION

With its simple shape and its clean line, *STICK* series represents the first example of evolution from the standard to the modern and minimalist mixer, in compliance with the practicality of use and cost containment, both in production and in utilization. The basin mixer is in fact available with **ENERGY WATER SAVING** cartridge, thanks to which you can get a dual energy saving: the opening of the handle on frontal position to the first detent allows supply of only cold water in small quantities. To get hot water you need to rotate the lever to the left and to have a higher flow the handle has to be opened beyond the *ECO-STOP*.

termostatici

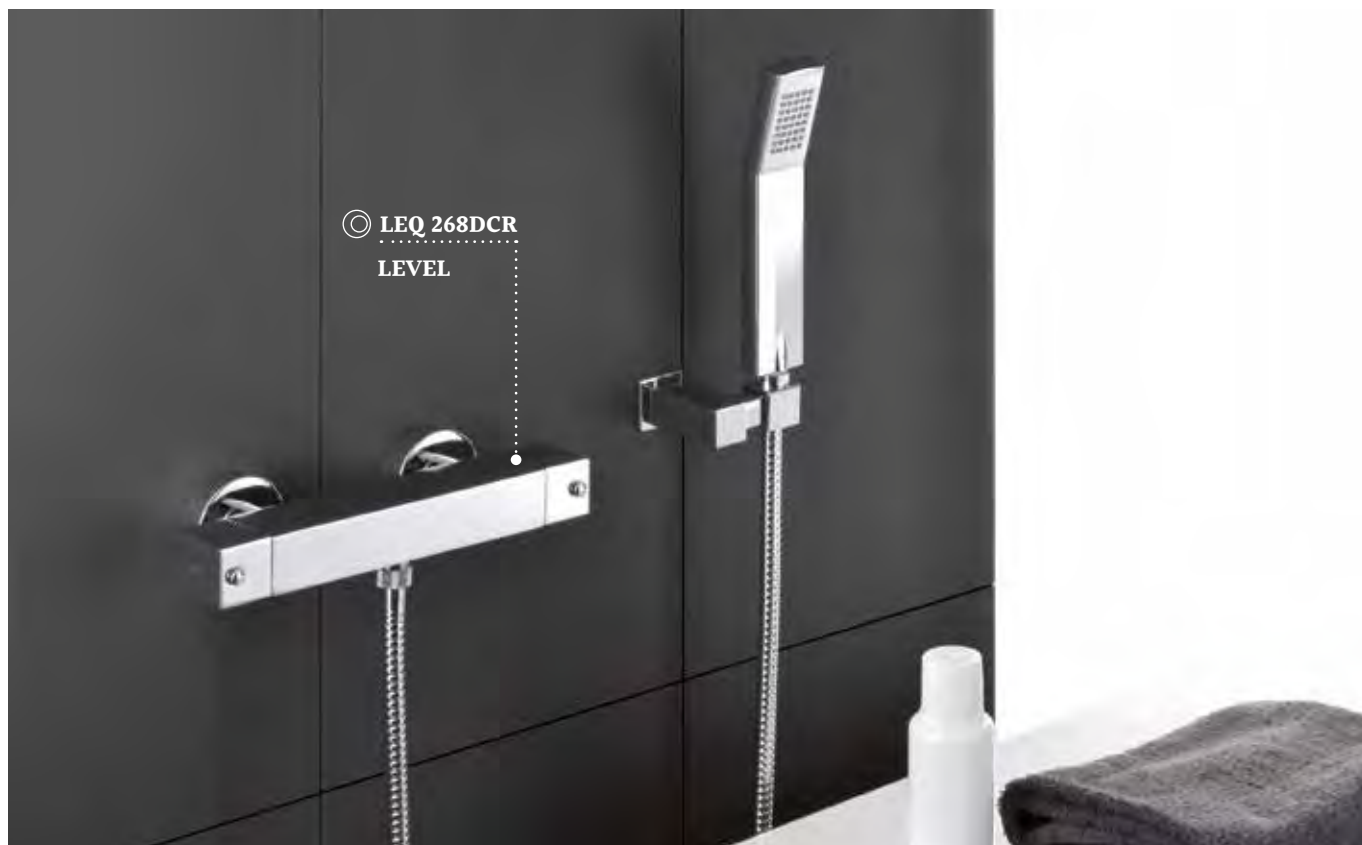

I nostri rubinetti termostatici per il bagno permettono di mantenere l'acqua ad una temperatura costante per tutta la durata di utilizzo, anche nel caso di una variazione di pressione sulle mandate dell'impianto nel caso di apertura contemporanea di altri rubinetti. L'acqua calda e l'acqua fredda, infatti, vengono miscelate dalla cartuccia termostatica ad una temperatura preimpostata dall'utente, regolando costantemente la miscelazione in base alle variazioni dell'impianto, evitando così aumenti o crolli improvvisi della temperatura, che viene mantenuta costante anche nelle successive aperture.

Our thermostatic mixers for the bathroom allow to maintain the water at a constant temperature during the use, even in case of pressure changes in the equipment due to simultaneous opening of other taps. The hot and cold water, are in fact mixed by the thermostatic cartridge at a temperature preset by the user, constantly adjusting the water mixing according to changes in the equipment, avoiding increases or sharp reductions of the temperature, which is kept constant also in the succeeding openings.

NOSTALGIA

Il gusto per le belle cose di una volta ha un sapore antico: le serie di rubinetteria a 2 maniglie BELINDA, MELISSA e CAMILLA si ispirano ad un'epoca passata per creare un'armonia unica con gli ambienti più classici. La linea unica del corpo può essere personalizzata scegliendo tra ben 3 differenti tipologie di maniglia: BELINDA con maniglia a croce e pomelli tondi, MELISSA con leva con caratteristico manicotto di ceramica bianca, CAMILLA con maniglia a croce che ricorda i timoni delle navi. Tutti gli articoli sono disponibili nella classica versione cromata e nelle più eleganti finiture del cromo-oro, bronzato, ramato e argento.
